USFWS Budget

Impacts of Dietary Selenium on Giant Garter Snake Populations in the
Sacramento-San Joaquin Watershed

Garter snakes eat 20% of body wt per week in fish (Rossman et al, 1996)
 Average snake weight about 100 gm (male ~60 gm, female ~140 gm) (Wolfe pers. com.)
 Average wt of mosquitofish 0.5 gm (0.2-0.8 gm) (USFWS field data from Grassland Bypass
 Project monitoring Mar 31, 1999)
 Each snake needs 20 gm = 40 mosquitofish per week, 520 mosquitofish per quarter (13 wks)
 3 biologists seine about 600 fish per day in sloughs/drain (200 fish per biologist day).
 2.6 biologist days per quarter needed to catch fish for each snake.

To maintain 24 snakes on wild-caught fish:

24 snakes X 2.6 biologist days/snake/quarter = 62 biologist days/quarter

Personnel costs /quarter = 62 biologist days /quarter X \$530/biologist day = \$33,072

WILDLIFE CONSERVATION/MANAGEMENT EXPERIENCE

1996-present Fish and Wildlife Biologist, U.S. Fish and Wildlife Service, Environmental Contaminants Division, Sacramento, California. Lead a team of refuge biologists and contaminants specialists that monitors fish and wildlife resources on the San Luis National Wildlife Refuge Complex in the western San Joaquin Valley to insure that the ecosystem is not harmed by agricultural drainwater. Conduct preacquisition surveys.

1994-1996 Fish and Wildlife Biologist, U.S. Fish and Wildlife Service, Endangered Species Division, Sacramento, California. Negotiated conservation measures to avoid or compensate for degradation and destruction of habitat of federally listed (endangered and threatened) species in compliance with the Endangered Species

Act. Reviewed environmental impact assessments.

TEACHING EXPERIENCE

- 1999 Instructor, California State University, Sacramento, for the upper division course:
Laboratory Investigations in Biology (two sections)
- 1990, 1991 Instructor, University of California, Davis, for the upper division course:
Phylogenetic Analysis of Vertebrate Structure.
- 1983-1989 Teaching assistant, University of California, Davis, for the following:
Laboratory in General Zoology: 1983-1985, 1987, 1988
Principles of Biology: 1984, 1989
Functional Analysis of Vertebrate Structure: 1985
Phylogenetic Analysis of Vertebrate Structure: 1986, 1987
- 1973-1974 Peace Corps Volunteer teacher of biology, mathematics, basic science, physics; head
of mathematics department, All Saints High School, Labasa, Fiji.

FIELD RESEARCH EXPERIENCE

- 1992-1994 Planned, organized, secured funding for, and completed a two-year survey of the
distribution of land birds in the Ryukyu archipelago, south of Japan. The survey
was supported by a National Science Foundation fellowship.
- 1985-1989 Planned, organized, and carried out four expeditions to survey the land birds of the
least known and most remote islands of the Fiji Archipelago in the S. W. Pacific.
Each expedition was about four months in duration. Comprehensively surveyed
more than 220 islands.
- 1975-1978 Conceived, organized, and completed a comprehensive study of the wildlife of the
Fiji Islands. Secured the sponsorship of the Fiji Education Department, the
National Trust for Fiji, and the U. S. Peace Corps for this project. The study
culminated in coauthorship of a 400-page resource book for use in Fiji schools.
The book summarized all that is known of the biology of the terrestrial vertebrates
of Fiji. It is abundantly illustrated with original photographs, drawings, and range
maps. In the course of field work for this study, I discovered a rare new species of
fruit bat belonging to a little-known genus in remote montane rainforest on one of
the islands. Coauthored the original description of this species.

CONSULTING EXPERIENCE

- 1992 Surveyed snakes in remnant wetlands of the Central Valley of California to assess the
status and distribution of the endangered giant garter snake. Worked for Beak
Consultants Inc., 2717 Cottage Way, Suite 20, Sacramento, CA 95825.

- 1977 Compiled an environmental impact report for the Fiji Government on the proposed Monasavu Hydroelectric Scheme. In support of the report, surveyed the birds of the rainforest near Monasavu Falls, Vitilevu, Fiji.
- 1976-1977 Compiled an environmental impact report for the AMAX mining consortium on a prospective copper mine at Waisoi Creek, Namosi, Fiji. The report included a field survey of the terrestrial vertebrates in the vicinity of the proposed mine site.

This section provides contract terms and conditions applicable to contracts issued under State (CALFED) funds. The specific terms and conditions may vary, depending on the applicant category (State entities, Federal and other public entities, non-profit organizations, and private entities), and the type of project (Public Works/Construction or Services), as identified in Table D-1. Specific documents that should be submitted with the proposal are shown in Table D-1.

The general terms and conditions which will apply to Category III contracts funded with Proposition 204 funding are provided below.

In addition to these general terms and conditions, specific additional standard clauses will be applicable depending on the type of project and applicant category. Table D-1 provides a summary of those standard clauses for different types of projects and different applicant categories. Those standard clauses are provided at the end of this attachment.

1. **Term of Contract:** The term of the agreement will be dependent on the project and may range from 1 to 3 years. The agreement shall not become effective until fully executed by the parties and approved by the Department of General Services.
2. **Payment Schedule:** No funds will be disbursed by State or National Fish and Wildlife Foundation (NFWF) to Contractor without 1) an executed copy of the Contract, 2) receipt of an original invoice with supporting documentation, and 3) receipt and satisfactory completion of deliverables and/or phases of work as set forth in the agreement, including quarterly financial and programmatic reports. Payments shall be in arrears within 30 days of receipt of invoice by CALFED.
3. **Budget Variances:** Variances which exceed ten percent of a project task's approved budgeted amount should have approval in advance, with written explanations of programmatic changes to cover such variances but must remain within the maximum contract amount.
4. **Subcontracts:** Contractors are responsible for all subcontracted work. Subcontract terms and conditions must include all applicable contract terms and conditions as presented herein. Subcontractor agreements require approval by the State or NFWF, unless the subcontract was included and approved as part of the main proposal. Any amendments to subcontract must be approved by the State or NFWF. In obtaining subcontracts, contractor must obtain at least 3 competitive bids for all subcontracted work, or comply with the provisions of Government Code Section 4525 et seq., if applicable, or submit written justification for and obtain the State's or NFWF's approval of non-compliance with these requirements.

The State or NFWF must approve such substitutions in advance of providing applicable services.

final form data and information received, collected and developed under this agreement, subject to inclusion of appropriate acknowledgment of credit to the State or NFWF, CALFED, and all cost sharing partners for their financial support. Use of draft data requires pre-approval by State or NFWF and CALFED. Contractor shall not sell or grant rights to a third party who intends to sell such product as a profit-making venture.

9. Indemnification: The Contractor agrees to indemnify, defend and hold harmless the CALFED agencies, the State of California, the Resources Agency, Department of Water Resources, and National Fish and Wildlife Foundation and their officers, agents and employees from any and all claims and losses accruing or resulting to any or all contractors, subcontractors, material persons, laborers, and any other person, firm or corporation furnishing or supplying work services, materials or supplies in connection with the performance of this contract, and from any and all claims and losses accruing or resulting to any person, firm or corporation who may be injured or damaged by the Contractor in the performance of this contract.

Independent Status: The Contractor, and the officers, agents and employees of Contractor, in the performance of the contract, shall act in an independent capacity and not as officers or employees or agents of the State of California, NFWF, CALFED Agencies, the Resources Agency, or Department of Water Resources.

11. Termination Clause: The State or NFWF may terminate this agreement and be relieved of the payment of any consideration to Contractor should Contractor fail to perform the covenants herein contained at the time and in the manner herein provided. In the event of such termination the State or NFWF may proceed with the work in any manner deemed proper by the State. The cost to the State shall be deducted from any sum due the Contractor under this agreement, and the balance, if any shall be paid the Contractor upon demand.

The assignment made by the Contractor and all additional assignments made by the subcontractors and suppliers shall be deemed to have been made and will become effective at the time the awarding body tenders final payment to the Contractor, without further acknowledgment or the necessity of tendering to the awarding body any written assignments.

If an awarding body receives, either through judgment or settlement, a monetary recovery for a cause of action assigned under Government Code Sections 4550-4554, the assignor shall be entitled to receive reimbursement for actual legal costs incurred and may, upon demand, recover from the public body any portion of the recovery, including treble damages, attributable to overcharges that were paid by the assignor but were not paid by the public body as part of the bid price, less the expenses incurred in obtaining that portion of the recovery.

Any subcontract for work involving a construction trade shall also include the Standard California Construction Contract Specifications, either directly or through incorporation by reference. Any subcontract for work involving a construction trade shall also include the Standard California Construction Contract Specifications, either directly or through incorporation by reference.

3. The contractor shall implement the specific nondiscrimination standards provided in paragraphs 6(a) through (e) of these specifications.

4. Neither the provisions of any collective bargaining agreement, nor the failure by a union with whom the contractor has a collective bargaining agreement, to refer either minorities or women shall excuse the contractor's obligations under these specifications, Government Code, Section 12990, or the regulations promulgated pursuant thereto.

5. - d. Ensure all personnel making management and employment decisions regarding hiring, assignment, layoff, termination, conditions of work, training, rates of pay or other employment decisions, including all supervisory personnel, superintendents, general leadpersons, on-site leadpersons, etc., are aware of the Contractor's equal employment opportunity policy and obligations, and discharge their responsibilities accordingly.
 - e. 7. Contractors are encouraged to participate in voluntary associations which assist in fulfilling their equal employment opportunity obligations. The efforts of a contractor association, joint contractor-union, contractor-community, or other similar group of which the contractor is a member and participant, may be asserted as fulfilling any one or more of its obligations under these specifications provided that the contractor actively participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female workforce participation, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's.
 8. The Contractor is required to provide equal employment opportunity for all minority groups, both male and female, and all women, both minority and nonminority. Consequently, the Contractor may be in violation of the Fair Employment and Housing Act (Gov. Code Section 12990 et seq.) if a particular group is employed in a substantially disparate manner.

 10. The Contractor shall not use the nondiscrimination standards to discriminate, harass or allow harassment against any person because of race, color, religious creed, sex, national origin, ancestry, disability (including HIV and AIDS), medical condition (cancer), age, marital status, or denial of family and medical care leave and denial of pregnancy disability leave.
 11. The Contractor shall not enter into any subcontract with any person or firm decertified from state contracts pursuant to Government Code Section 12990.
 12. The Contractor shall carry out such sanctions and penalties for violation of these specifications and the nondiscrimination clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Government Code Section 12990 and its implementing regulations by the awarding agency.
